

## 万向联接器

## UNIVERSAL CONNECTOR

**用途:** 一般用于需要输送多种液态介质的码头, 可以使一台装卸臂能输送多种介质。

**USE:** Apply in the dock that need transporting manifold liquid medium. It can be transported manifold medium by one Loading Arm.

**特点:** 万向联接器与装卸臂类似, 也有六个回转接头, 其一端固定, 与装卸臂的入口法兰连接; 另一端为自由端, 并配备快速联接器, 可以在一定范围内与任一法兰对接。该设备结构紧凑, 体积小, 操作灵活、简单, 密封可靠。

**CHARACTERISTIC:** It is similar to the Loading Arm with 6 swivel joints, One end is fixed and connected with the inport flange of the Loading Arm, the other is free with Quick Connector. It can be connected to every flange wiithin the regular range. It has the feature that compact construction, small volume, operating quickly and easily, reliable sealing.

**适用介质:** 原油、成品油、水及多种化工产品。

**SUIT MEDIUM:** crude oil, light oil, water and manifold chemical products

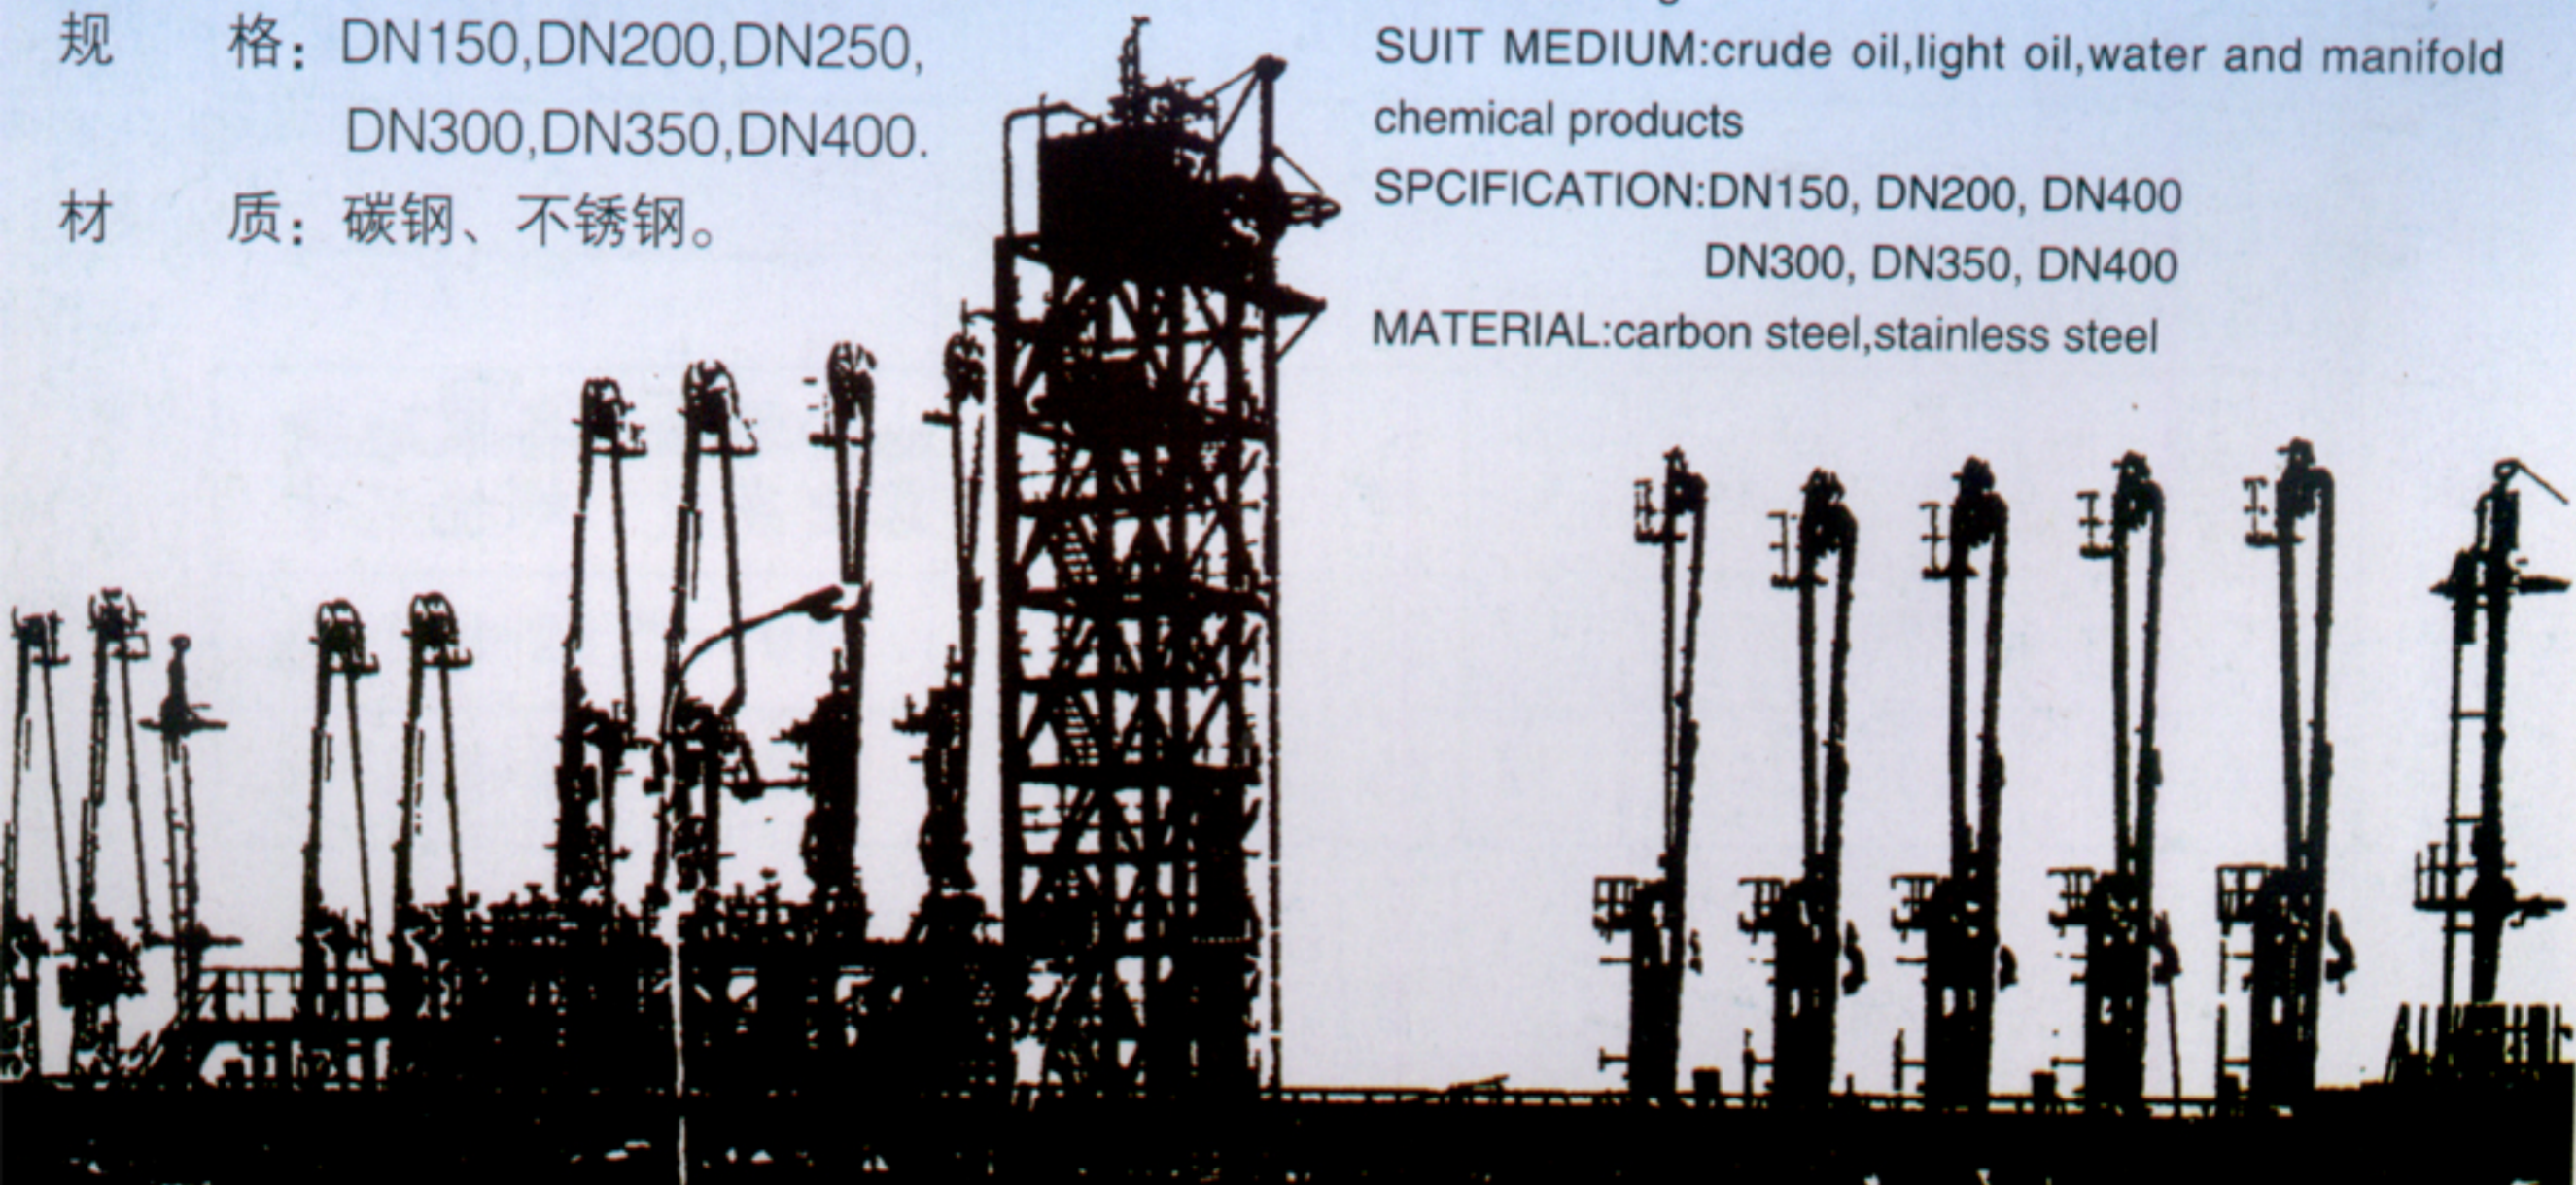

**规格:** DN150, DN200, DN250, DN300, DN350, DN400.

**SPCIFICATION:** DN150, DN200, DN400

DN300, DN350, DN400

**材质:** 碳钢、不锈钢。

**MATERIAL:** carbon steel, stainless steel
